

## Solution [\[Version PDF\]](#)

### Installation du docker

- Lancer le docker Sonarqube :

```
docker run -d --name sonarqube -p 9000:9000 sonarqube
```

- Dans un navigateur, aller sur l'URL : <http://10.0.0.100:9000>
- Se connecter avec le compte "admin" (mdp: admin)

### Analyse du projet spring-framework-petclinic

- Dans un terminal Ubuntu, se connecter sur le docker JenkinsCI avec la commande bash :

```
docker exec -it JenkinsCI bash
```

- Se placer dans le répertoire **"/var/jenkins\_home/workspace/Petclinic"**

```
cd /var/jenkins_home/workspace/Petclinic
```

- Si le répertoire est vide, récupérer les sources du projet spring-framework-petclinic (remplacer XXXXXXXX par votre compte GitHub) :

```
git clone https://github.com/XXXXXXX/spring-framework-petclinic.git
```

- Lancer une analyse sonar :

```
mvn clean verify sonar:sonar -Dsonar.host.url=http://10.0.0.100:9000
```

- Consulter les résultats sur Sonarqube :

- Consulter la liste des bugs :

## Correction d'un bug

- Dans Sonarqube, consulter le 1er bug rencontré dans le fichier "**src/main/webapp/WEB-INF/jsp/owners/ownerDetails.jsp**"
- Corriger ce bug dans le projet spring-framework-petclinic dans GitHub et faire un commit de la correction
- Relancer une analyse Sonar :

```
mvn clean verify sonar:sonar -Dsonar.host.url=http://10.0.0.100:9000
```

- Vérifier que le bug a bien disparu dans l'analyse

## Ajout d'un nouveau bug

- A partir du menu "**Rules**", sélectionner une règle de type "**Bug**" dans le langage "**Java**"
- Copier la partie "**Noncompliant Code Example**" de cette règle et coller les lignes dans un fichier source Java du projet spring-framework-petclinic

Bug Major Main sources No tags Available Since Dec 06, 2019 SonarAnalyzer (Java) Constant/Issue: 2min

The use of operators pairs ( +=, -= or != ) where the reversed, single operator was meant ( +=, -= or != ) will compile as results.

This rule raises an issue when +=, -=, or != is used without any spacing between the two operators and when there is at least one space between the two operators.

Noncompliant Code Example

```
int target = -5;
int num = 3;

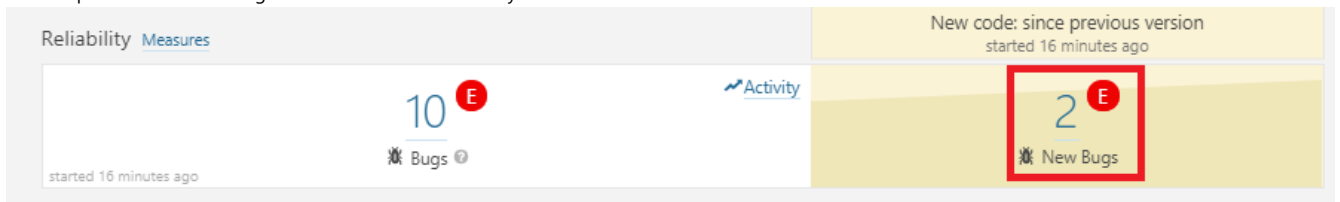

target += num; // Noncompliant; target = -3. Is that really what's meant?
target += num; // Noncompliant; target = 3
```

Compliant Solution

- Relancer une analyse Sonar :

```
mvn clean verify sonar:sonar -Dsonar.host.url=http://10.0.0.100:9000
```

- Vérifier que votre nouveau bug est bien remonté dans l'analyse Sonar
